WOMEN'S RIGHT UPHELD BY SENATOR SHAFROTH

Colorado Legislator, in Speech, Argues That for Men to Insist on Control Is Despotism.

That suffrage for women is right, expedient and practicable was the assertion of Senator Shafroth of Colorado, who today addressed the Senate in support of the Susan B. Anthony amendment to the Consitution granting equal suffrage, which is now on the Senate

In the formation of the republic said Senator Shafroth, new principles of government were put forth, one of which was that all men are created equal in rights, and that man is entitled to life, liberty and the pursuit of appiness as inalienable rights.

"Invoke Divine Right of Sex."

They invoke the divine right of sex as the monarchs asserted the divine right of kings."

Senator Shafroth argued that for men to insist upon controlling the govern-ment of the women was despotism, be-

cause the women had never delegated such a right to them. Women are taxed on their property just as the men, he reminded the Senate, and said that the forefathers had held taxation without representation to be tyranny.

"The arrogance with which men assert that women have a sphere to which they should be confined must be irritating to women of thought and irritating to women of thought and action," said Senator Shafroth. "Who gave man the right to determine woman's sphere without even consulting her?

Denies Force of Argument.

"Many assume that women do not even if it were true. Even prisoners become satisfied with their conditions. After the civil war many of the slaves did not want their freedom. They dreaded a change. Will any one contend that they should not have had them had been satisfied with their slav-

"I would do exactly as you did in the civil war, Mr. Greeley, I would hire a substitute."
